Stealth Black

4XPLOR - Intelligent 4x4 System With Selectable Terrain Modes

This intelligent terrain management technology optimises traction for snow, sand, mud or the road and helps you stamp your authority on every terrain.

Level 2 ADAS (Advanced Driver Assistance Systems)

	Auto Emergency Braking	<p>Detects vehicles, cyclist, and pedestrians ahead, and automatically applies brakes to help prevent or reduce the impact of a potential collision.</p>
	Forward Collision Warning	<p>Warns you of imminent collision with vehicles, pedestrians.</p>
	Front Vehicle Start Alert	<p>When a stationary vehicle in front starts moving, FVSA alerts the driver with a pop-up in the cluster along with a chime and haptic vibration in steering.</p>
	Adaptive Cruise Control	<p>Automatically maintains a safe distance by matching the speed of the vehicle ahead, ensuring smoother drives in both city and highway conditions.</p>
	Highbeam Assist	<p>Adapt your car's headlights to oncoming and ongoing traffic. The vehicle temporarily switches its headlights to low-beam in case of on-coming and ongoing traffic</p>
	Lane Departure Warning	<p>The Lane Departure Warning system offers visual, audio and haptic alerts to the driver whenever the car exits its lane on either side.</p>
	Smart Pilot Assist	<p>Employs a virtual smart pilot to the charge of steering, accelerations, and braking to help the driver to keep the vehicle in the centre of the traffic lane.</p>
	Speed Limit Assist	<p>When a speed limit sign is detected, SLA function warns the driver with a blinking telltale if vehicle is over speeding.</p>
	Lane Keep Assist	<p>Lane Keep Assist system adjusts steering to keep the vehicle within its lane if the system determines an unintentional departure from the driver's side.</p>
